On Sunday 17 May I am running the SMH Half Marathon for the Running for Premature Babies Foundation, to give premature babies a better chance of survival. Every dollar raised will go towards a new state of the art lifesaving humidicrib that has been described as 'the next best thing to the womb', and also to fund research to advance the care of premature babies for the future. No donation is too small and every donation is hugely appreciated. Thank you so much for your support.'
